FireFly[®] Wireless Ballistic Sensor

**Gunshot Detection Technology developed by
the Department of Energy**

**Algorithm analyzes Energy and Waveform to
prevent false alarms**

**Wireless detection Range
~300ft indoor/~500ft outdoor**

**Ballistic Detection Range
~100ft - 120ft indoor, ~100ft outdoor**

433 MHz wireless frequency

3.6V Battery with ~4 year life

POE/USB Receiver with 200 node connections

Requires only one node per coverage area

Weatherproof IP67 case
